

A FAMILY OF INDUSTRY.

The industrious Jones family of founders started a little welding and metal shop in 1969, and since the beginning, they've always strived to put the grit in integrity. Today, their commitment to honest hard work has driven the company to become a closely held family of major company divisions, with an incredible family of highly skilled coworkers who prove every day that they are the best in the business. Each of our divisions plays an integral role in making it happen for our customers, with each conceived to strengthen the capabilities of the others, with everyone and everything focused on bringing customers the top-quality products and services they need, with the incredibly fast turnaround they demand. Every day, we tell each of our people to take pride in their work and put value in what they do, because we know that when we *Value Our Performance!*, our customers will, too.

COLLAPSIBLE STEEL REELS

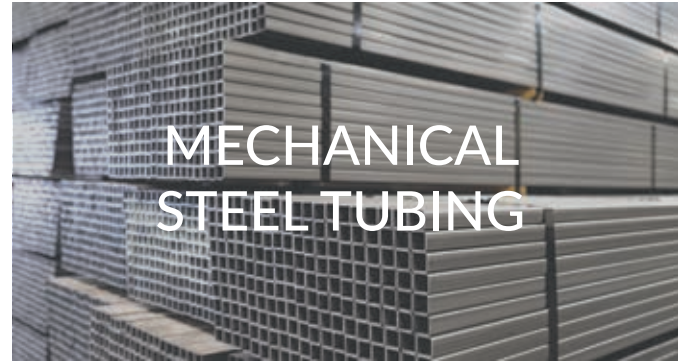

Our Steel Reel plant is the premier domestic manufacturer of top-quality collapsible reels for storing and pulling a wide variety of flexible HDPE conduit, tubing, piping, hoses, cords and much more, and our reach continues to grow into international markets. Single and multiple compartment reel configurations are available with drum sizes up to 80" and flanges up to 120".

CRANE SERVICES

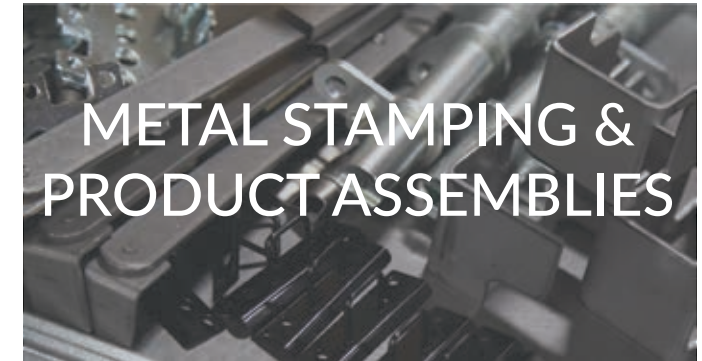

Our highly trained, certified and experienced crane operators are ready to go at a moment's notice. Our crane fleet includes mobile hydraulic cranes with up to 60 ton capacity and up to 175' tip height, and our fully equipped rigging truck capabilities mean we have what it takes to safely and efficiently raise, roll, slide, place or lift almost any heavy object or piece of machinery.

L&R's Tube Mill manufactures high quality, durable mechanical steel tube and pipe size ERW tubing with high strength-to-weight ratios that are critical to their product performance, making us a preferred regional supplier of square, rectangular and round steel tube. We produce lengths from 24"-45' and diameters up to 3" OD.

MECHANICAL STEEL TUBING

L&R Industries: Beehler Division is a premier manufacturer and supplier of Metal Stampings, Assemblies, Engineered Hinges, Hardware, Machined/Fabricated Metal Parts and Tool & Die products and services. We serve small, regional niche companies and large, multi-national, world-class manufacturers, and we're known for exceptional quality products.

METAL STAMPING & PRODUCT ASSEMBLIES

MATERIAL PROCESSING SYSTEMS

Agricultural and Industrial customers nationwide count on L&R's decades of experience drafting, procuring, fabricating and installing a wide variety of custom manufacturing equipment and bulk material conveying, processing, and handling equipment. We also fabricate and install major industrial ducting systems, scrubbers and dust collection systems.

COMMERCIAL & INDUSTRIAL ELECTRIC

L&R's Electrical Division provides Commercial and Industrial electrical contracting services for repairs, remodels and renovations, design-build for new construction and more. Our highly skilled electricians are an important part of our complete machinery and equipment installation and repair capabilities, providing emergency, preventative and ongoing maintenance services.

Whether you need an emergency repair, an ongoing maintenance program, or a turnkey project contractor, our highly skilled craftsmen are recognized leaders in Industrial Millwright and Rigging services, with decades of experience and expertise to install, maintain, repair, and troubleshoot your industrial equipment and machinery

MILLWRIGHT SERVICES

We maintain a large inventory of hardware, parts and components for machinery and manufacturing equipment. We carry a wide array of products, from nuts and bolts to bearings and more. Our inventory is available to customers everywhere, and manufacturers count on us to have critical parts they need to keep their equipment up and running.

PARTS & COMPONENTS

METAL FABRICATION

Our expansive full-service metal fabrication shop can do it all, from concept, to technical drawings, fabrication and even repair, retrofitting and parts replacement. We serve customers locally, regionally and nationwide, providing everything from a single small custom part, to short run production, to massive, complete industrial projects. We can handle jobs most shops can't, with top quality and fast turn-around.

STRATEGIC PARTNERSHIPS

We understand there's nothing more important from a Strategic Partner than having the right products, at the right price, at the right time. Our financial strength, half-century of experience and extensive capabilities mean we have the capacity to respond quickly and grow to meet changing customer needs – key assets for your critical supply chain partner.
