

# METAL FABRICATION

---

We have amazing capabilities in our huge, 65,000 square foot Metal Fabrication facility. From a single small custom part, to short and long run production, to massive specialty Industrial Ducting Pipe projects, to equipment and machinery manufacturing, to complete Material Processing Systems - we can do it all from concept, fabrication and even installation. Our in-house drafting capabilities allow us to produce products in days or weeks when other might take months to turn them around. Give us a call or visit us online to learn more.
