

METAL STAMPING & ASSEMBLIES

L&R Industries' Beehler-Stamping & Assemblies Division has over 130 years of experience as an innovative leader in the Metal Stamping and Assemblies business. Now a proud part of the L&R family of industries, the Beehler Division makes a wide variety of OEM products for smaller niche companies and for large, multi-national world class manufacturers. Products we manufacture include simple and complex stampings, assemblies, fabricated metal parts and components, continuous hinges, toolboxes, switches, latches, tent stakes and much more. Our skilled design specialists and craftsmen are ready to help you with part development, short run manufacturing or full-scale production at high volume. We can also take care of inventory management to ensure you have parts ready to ship when you need them.
